

VStation QuickStart Guide

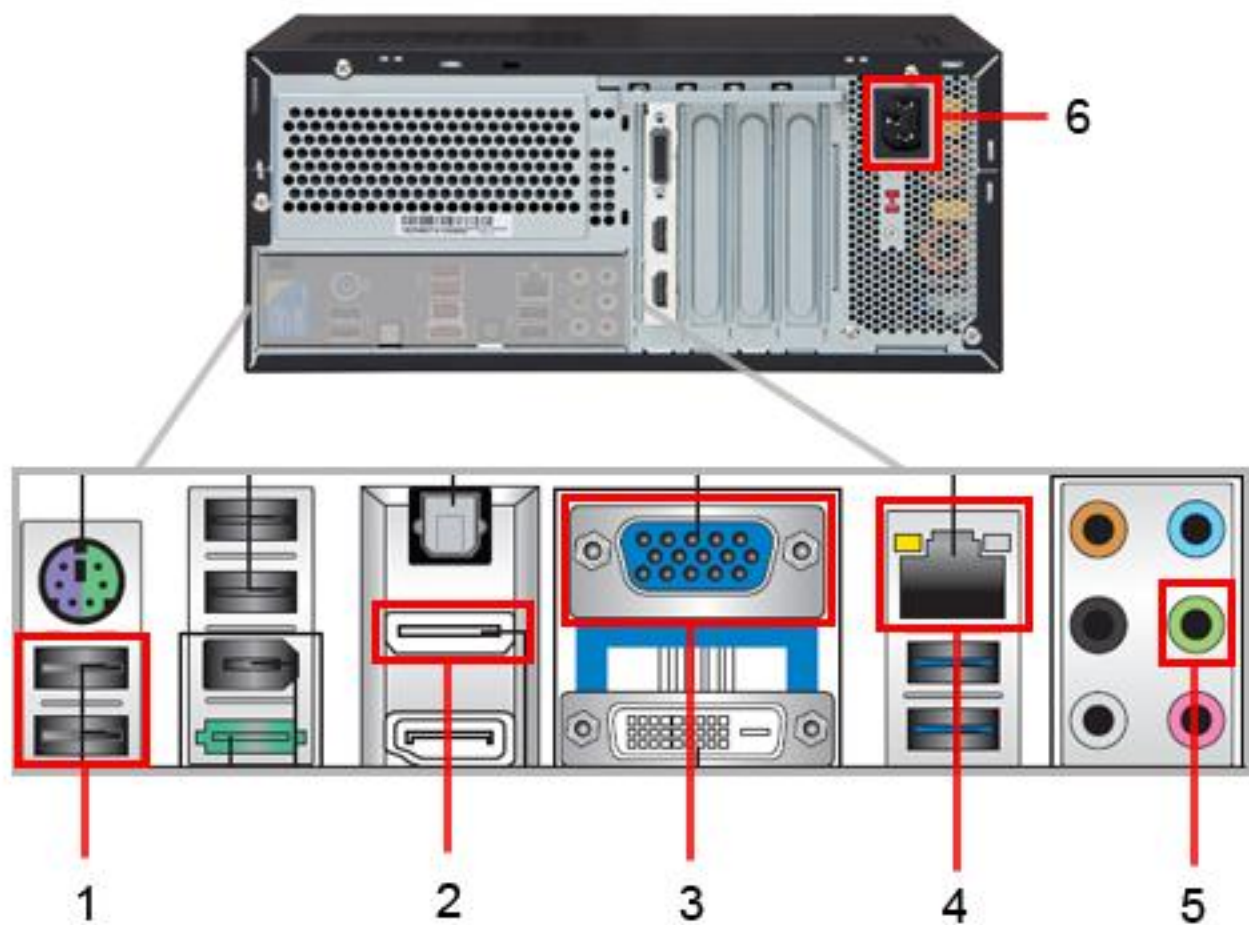

Connect the speakerphone to a USB port.

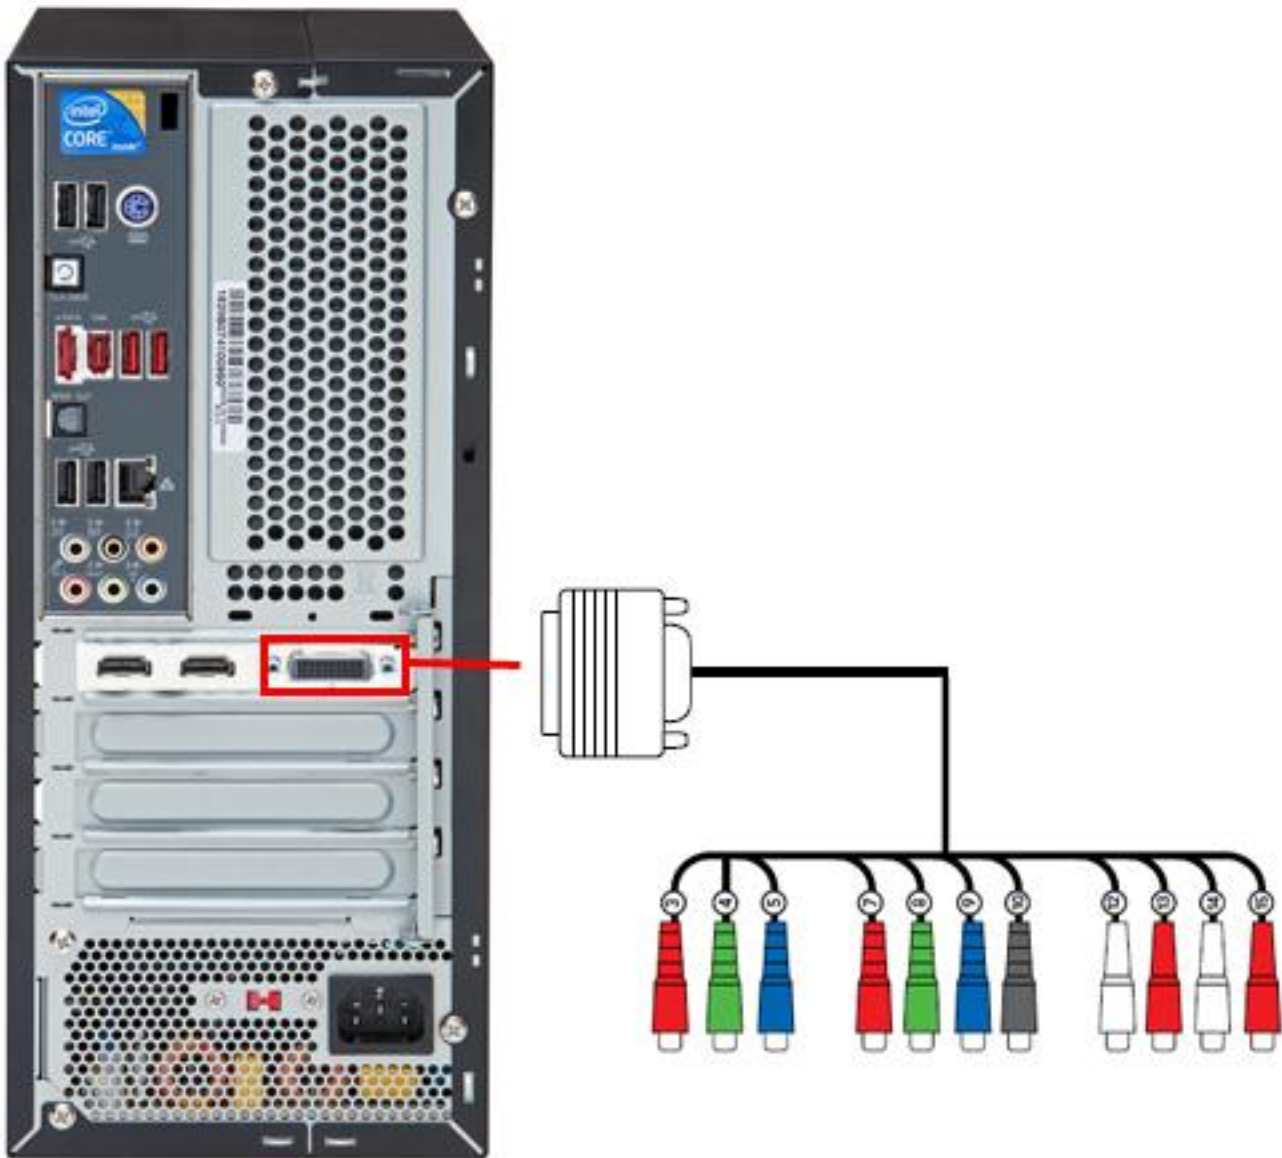

1. Keyboard & Mouse
2. HDMI to Display*
3. VGA to Display*
4. Network
5. Audio output
6. Power

*Choose either HDMI or VGA depending on what connections your display supports. If HDMI is used, the audio cable may be optional.

Connect the breakout cable.

Connect one end of the composite cable to the camera and the other to the green 'Y-In 8' of the breakout cable.
