

Using Appia's Reliable Hosted Platform with VTech Business Phones

Wednesday, April 12th, from 12:00 to 1:00 pm CST.

[REGISTER](#)

Join [Appia Communications](#) and [VTech](#) for a joint webinar on Wednesday, April 12 at 12:00 pm CST to learn how you can use Appia's hosted Metaswitch platform with certified VTech Business phones to build a reliable, cost-effective, and flexible business communication system.

[Appia Communications](#) is a leading provider of Cloud-based communication and networking services. Its solutions enable customers to reduce capital spending and operating costs, and enhance productivity and customer care. Founded in 2001, Appia has operations in Chicago, Dallas, Detroit, Indianapolis, St. Louis, and Washington, DC. Appia's customers represent every major industry vertical; range from 20 to over 60,000 employees, and are located across the U.S. and Europe. Appia has been recognized as one of the fastest-growing solution providers in the technology industry by CRN, and one of the top five managed service providers in the world by MSP Mentor.

[VTech](#) is the world's No. 1 manufacturer of cordless phones, an expertise that spills over into its portfolio of cost-effective, cutting-edge business phone solutions. The company's award-winning SIP systems scale anywhere from the one-man show in a home office to enterprise-level corporations, featuring compatibility with hosted and open-source PBX platforms, U.S.-based support and a best-in-class warranty.

During the webinar, you will learn about:

- Appia Communications introduction and business services overview.
- VTech company introduction and business phones portfolio.
- Using Appia's hosted Metaswitch platform capabilities with certified VTech business phones to create a flexible and reliable business communication system.

Wednesday, April 12th @ 12:00 pm CST
