

Appia Communications Relocates St. Louis Network Operations Center

ST. LOUIS, (MO) — April 20, 2007 — Appia Communications, a leading provider of managed IT and telecommunications services to small and medium sized organizations worldwide, today announced the opening of a new Network Operations Center (NOC) in St. Louis.

"Our operations have grown and we needed a site that would enable us to provide the highest quality customer service while meeting our NOC's unique requirements for power, security, and bandwidth," said Michael Goldman, Vice President of Network Services for Appia, "Bandwidth Exchange is a perfect fit."

"We're very pleased to welcome Appia to the Bandwidth Exchange Buildings," said Robert Guller, Managing Member. "Our goal is to be the ultimate place where IT happens, and Appia fits into that environment perfectly."

Bandwidth Exchange has telecom carriers of all sizes, and Guller sees Appia as bringing value to its fellow tenants. "The Bandwidth Exchange Buildings are home to virtually every major telecom service provider in the region," continued Guller. "Appia can provide ever-important monitoring and security services for our clients' networks."

About Appia Communications

Appia Communications is a leading provider of managed IT and telecommunications services. Our mission is to enable small and mid-sized companies and organizations to realize the benefits of Internet Protocol (IP) technology. Our managed solutions help our customers to reduce costs, enhance employee productivity, improve customer care, and allow them to compete more effectively against much larger enterprises.

Headquartered in Traverse City, Michigan, Appia has operations in New York, Chicago, Los Angeles, Detroit, Indianapolis, St. Louis, and other markets in North America and Europe. For more information, please visit www.appiaservices.com, or call 877-277-4297.
