

Appia Communications Publishes White Paper on VoIP Security

TRAVERSE CITY, MI – May 23, 2008 – Appia Communications Inc., a leading provider of managed IT and telecom services, today announced that it is making available a white paper on VoIP Security.

"VoIP security is not yet a major problem, but if the history of the Internet is any guide, it will be," said Victor von Schlegell, Appia's president and the paper's author. "The purpose of the white paper is to provide a brief, high-level and non-technical overview of the challenges of VoIP security. Our goal is to inform owners and managers so that they can ensure that their organizations are prepared when VoIP security becomes an issue," continued von Schlegell.
